

As announced in the Annual Report 2015 and confirmed in the Interim Report for H1 2016, Greentech has been conducting a disposal process of the Environment Division in order to focus its activities on solar and wind technologies only.

Today, the Division was taken over by a company controlled by Bernardinello Engineering S.p.A., a leading Italian operator in the environment sector. The impact of the transaction on Greentech's accounts is not significant.
